**WHAT  
WE  
BELIEVE**

A positive, safe and supportive learning environment is necessary for an effective education.

Resources must be aligned with the core mission of the district to maximize student achievement and success.

Students, as lifelong learners, learn best when they are actively engaged in their learning and use relevant applications for solving problems.

Instruction, staff development and assessment efforts must be aligned to maximize effective achievement of goals.

As members of an inclusive community we must all model respect and demonstrate the highest ethical behavior.

Student success and well-being are best achieved through a balanced program that addresses the intellectual, physical, artistic, social, and emotional development of each student.

Individual needs are best met by a variety of instructional techniques and technologies providing options for students inside and outside the classroom.
