

San Dieguito Union High School District

District Accountability Report, 2006–2007

**An annual report to the
community about teaching,
learning, test results,
resources, and measures
of progress in our schools.**

District Accountability Report

Academic Year 2006-2007

Letter from the Superintendent

The entire staff and the Board of Trustees welcome you to the San Dieguito Union High School District. In 2008—as in the past—we are committed to providing the best possible education for all students in our growing and diverse community. We look forward to celebrating high achievement at all levels, from the everyday heroes in our ranks to the outstanding test scores we proudly publish. And, trusting in the wisdom and guidance of our District Strategic Plan, we will also explore sound and innovative ways to maximize our financial resources while building on our greatest strength – the community of

people who make up this outstanding district.

We recognize that student achievement can be measured in many ways. Across the district, upper echelon scores on standardized tests such as the SAT, the California STAR testing program, and the California High School Exit Exam consistently place our four comprehensive high schools among the highest ranking in San Diego County and in the top levels statewide. Students are well prepared in our middle schools to be highly successful in the strong academic programs at our high schools. We are proud of the hard work and efforts on the part of every member of the school community—parents, teachers, students, staff, and school board—that enable us to continually graduate high-achieving young adults who are prepared to succeed in tomorrow's world.

As any public school system, San Dieguito faces challenges because of state budget problems. However, our unique culture of collaboration and creative thinking have always helped us face the most difficult issues.

In April, 2008, we said goodbye to our retiring Superintendent, Dr. Peggy Lynch. In July we welcome Mr. Ken Noah as her replacement. Mr. Noah will bring his strong background to this great district.

We hope you find this District Accountability Report Card helpful, and we encourage you to visit our website at www.sduhsd.net for further information.

Peggy Lynch, Ed.D.

Overview

This report provides parents and citizens with key facts about our district’s students, teachers, and resources and how these elements come together to create the best possible circumstances for teaching and learning. This report is required by the federal law known as No Child Left Behind (NCLB). While the law specifies many of the facts we report here, we also disclose additional facts that we feel are most relevant to our community, our student body, and our mission.

Test results compose the first half of our report. You’ll find both summary analyses of the California Standards Tests (CST) and the California Achievement Test (CAT/6). The more detailed analysis of the CST breaks out results by student subgroups, ethnic groups, and grade.

The section on college preparation will show you how well we challenge students and prepare them for postsecondary education. Their participation in Advanced Placement (AP) courses and high-level math and science courses is included here, as is the enrollment of our graduates in the California college and university systems.

We offer a range of facts about our teachers and students in this report. You’ll be able to see changes in our faculty and student body over time, and evaluate our teachers’ credentials, experience, and education. In addition, we analyze the degree to which some of our students may be less prepared to learn and therefore more costly to educate.

Our financial health is the subject of the last part of this report. Key operating ratios and historical trends form the core of this section.

Test Results

CALIFORNIA STANDARDS TESTS

Districtwide results of the California Standards Tests are summarized here for the spring 2007 test cycle. Here we compare our students' scores with students' scores statewide. Our students scored Proficient or Advanced at far higher levels than did students statewide. This was true in all four curricular areas. The graphs to the right show three-year historical trends for the core subject areas. Note that in most cases students take tests based on their grade level. The exceptions are for students in grades seven through eleven in math and for students in grades nine through eleven in science. Those students take subject-specific tests based on the courses that they have completed or are in the process of completing.

California Standards Tests Three-Year Trends

Students Scoring Proficient and Advanced

California Standards Tests

SUBJECT AREA	DISTRICT AVERAGE	STATE AVERAGE
English/Language Arts	74%	43%
Math	54%	40%
Science	69%	38%
History/Social Science	61%	33%

CAT/6 TEST

The CAT/6 is a battery of norm-referenced tests that enables us to compare our third and seventh grade students with their peers around the country. The following results show the percentage of our students who scored at or above average. Our

students scored highest in math. In all four curricular areas, our students also scored far higher than their peers in the state. Note that only students in seventh grade take this test.

CAT/6 Results, Students Scoring at or Above Average

SUBJECT AREA	DISTRICT AVERAGE	STATE AVERAGE
Reading	80%	43%
Language	79%	45%
Math	85%	53%
Spelling	76%	59%

Test Results

CALIFORNIA STANDARDS TESTS: ENGLISH/LANGUAGE ARTS

The tables and graphs below show how our students scored in English/language arts by grade, subgroup, and ethnicity compared with their peers statewide. In all five grade groups, our students scored Proficient and Advanced at higher levels than their statewide peers. Our students also exceeded the state average in six of seven subgroups. Similarly, students of all ethnic

origins posted results that surpassed the statewide average. The gap between the highest (Asian) and the lowest (Hispanic/Latino) scoring ethnic groups was 45 percentage points in English/language arts. (The number of American Indian students taking these tests was too small to make meaningful comparisons possible.)

Results by Grade Level, Students Scoring Proficient and Advanced

Test Results

CALIFORNIA STANDARDS TESTS: MATH

Participation rates in advanced math classes (illustrated at right) show how effective we are at challenging our students. Our eighth graders are taking algebra at rates higher than their peers statewide. As shown in the graph below, our eighth-grade algebra students scored Proficient and Advanced at a much higher rate than their peers in the state. When all math course tests are analyzed as a whole, five out of seven student subgroups scored higher than their peers in the state. Hispanic/Latino students matched the state average. Students of all other ethnic origins performed better than their statewide peers. (The number of American Indian and Filipino students taking the test was too small to make meaningful comparisons possible.)

Test Results

CALIFORNIA STANDARDS TESTS: SCIENCE

In the graph to the right, you can see the rate at which our students are participating in science classes. Overall, students in our district are taking science classes at higher rates than their statewide peers. As shown in the graph below, our students also posted much higher results than the average statewide. In the mandatory science tests taken by students in eighth and tenth grade, our students' scores surpassed the state average by 31 percentage points. Similarly, all student subgroups exceeded the average statewide. Students of all ethnic origins also scored Proficient or Advanced at higher rates than their peers in the state. (The number of American Indian students taking science tests was too small to make meaningful comparisons possible.)

Test Results

CALIFORNIA STANDARDS TESTS: HISTORY/SOCIAL SCIENCE

Here we show how our students scored in the three history/social science tests compared with their peers statewide. We've broken down the scores by grade, subgroup, and ethnicity in the graphs and tables below. In all three courses, a higher percentage of our students scored Proficient and Advanced than did

students statewide. Students in all seven subgroups performed better than their peers statewide. Similarly, students of all ethnic origins posted results that exceeded the state average. (The number of American Indian and Filipino students taking the tests was too small to make meaningful comparisons possible.)

Measures of Progress

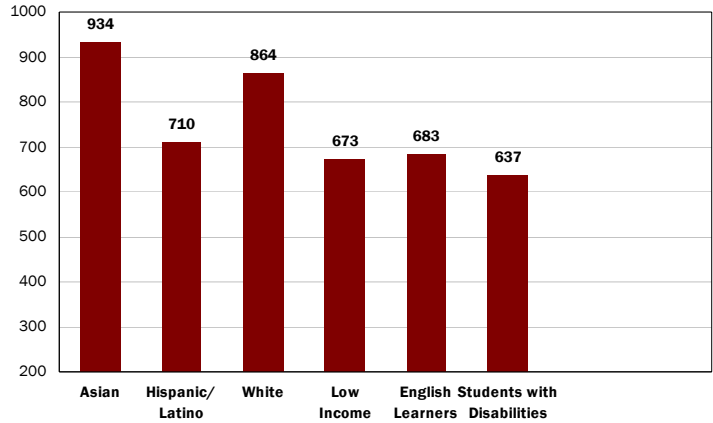

ACADEMIC PERFORMANCE INDEX (API)

The Academic Performance Index (API) is California’s way of measuring academic progress. Our district attained an API of 853, which is the same as our base in the prior year. Eight schools have attained APIs higher than 800. Fifty percent of our

schools met their API targets, compared with 45 percent of schools in the state. Four of our six student subgroups showed growth in their API scores as shown below.

	API SCORE	GROWTH
District API	853	0
Student Subgroups		
Asian	934	-1
Hispanic/Latino	710	19
White	864	-4

Measures of Progress

ADEQUATE YEARLY PROGRESS (AYP)

The federal law known as NCLB measures the academic success of schools and districts based on their API, graduation rates, and student participation rates and scores on standardized tests. The participation rates and the test scores of our students, both as a whole and as subgroups, must meet all the benchmarks in order for our district to attain Adequate Yearly Progress (AYP). For 2006-2007 our district met the complex criteria for AYP. Of our ten schools, 90 percent met all their AYP criteria, compared with 67 percent of the schools in the state.

District Level

Did the district meet all AYP criteria?	Yes

College Preparation

ADVANCED COURSE ENROLLMENT

Student enrollment in advanced courses is a strong indicator of our students' readiness for college. For this reason, we analyze Advanced Placement (AP) test scores and course-taking patterns rather than the scores obtained in end-of-course testing. Sixty-three percent of our juniors and seniors are taking AP tests, a rate higher than among students statewide. Based on

information provided by the College Board, those students enrolled in AP courses in our district are taking an average of 2.3 AP tests a year. In addition, 71 percent of all the AP tests taken by students in our district received a score of three or higher, sufficient to earn college credits in most universities.

Advanced Placement Test Participation

	DISTRICT	STATE
Breadth of AP Test-taking		
Junior and Senior Enrollment	4,253	927,095
Students Taking AP Tests	2,662	208,299
Percent of Students Taking AP Tests	63%	22%
Depth of AP Test-taking		
Number of AP Tests Taken	6,036	376,712
Tests Taken per Student	2.3	1.8
Tests Receiving a High Score (3+)	71%	57%

Advanced Course Participation

COURSES	DISTRICT	STATE
Intermediate Algebra	12%	17%
Advanced Math	47%	14%
Chemistry	16%	13%
Physics	12%	5%

COLLEGE ENTRANCE EXAMS AND ENROLLMENT

Where do our students go after they graduate from high school? Fifty-two percent enroll in the public colleges or universities in California. A greater percentage of our graduates attended University of California (UC) and California State University (CSU) campuses than their peers statewide. Although this data does not include private colleges in California or public college enrollment outside our state, it is indicative of the college-going

rate districtwide. The college entrance exam known as the Scholastic Aptitude Test (SAT) is a second indicator of our success at preparing students for college. A higher percentage of our seniors took the SAT than did students in other high schools in the state. Our students' scores on all portions of the SAT test were also higher than those of their peers statewide.

College Enrollment and Entrance Exams Taken

	DISTRICT	STATE
Students Enrolled in College, Class of 2006		
UC Enrollments	18%	8%
CSU Enrollments	14%	12%
Community College Enrollments	20%	30%
College Entrance Exam		
SAT Participation Rate	75%	37%
SAT Verbal Average Score	555	493
SAT Math Average Score	590	513
SAT Writing Average Score	560	491

College Preparation

GRADUATION AND DROPOUT RATES

We have calculated estimates of our graduation rates in two ways. First, we've followed the guidelines of the National Center for Education Statistics (NCES). This method shows us to have a higher four-year graduation rate than high schools statewide. In addition, the graduation rates of the classes of 2004, 2005, and 2006 exceeded those of the average high school in California. Second, we've applied California's method of calculating one-year graduation rates using the percentage of seniors who graduate at the end of the year. Based on this view,

more of our seniors graduate than do seniors statewide. The measurement of dropouts and graduates is among the less precise metrics we are publishing. The dropout rates depend on our finding missing students and identifying their reasons for not returning to school. This is inexact at best. Until California has a student identification system that can track students across schools and districts, dropout estimates are the only source we can rely on.

Graduation and Dropout Rate Estimates

KEY FACTOR	DISTRICT	STATE
Graduation Rate (Based on NCES)	96.2%	83.0%
Percentage of Seniors Graduating June 2006	91.8%	82.5%
One-year Dropout Rate (Based on NCES)	2.1%	3.7%
Four-year Dropout Rate (Derived)	8.2%	14.9%

Graduation Rates, Three-Year Trend, by School

ALL CALCULATIONS BASED ON NCES DEFINITIONS

SCHOOL	CLASS OF 2004	CLASS OF 2005	CLASS OF 2006
La Costa Canyon High	100%	100%	97%
North Coast Alternative High	100%	73%	77%
San Dieguito High School Academy	100%	100%	98%
Sunset High	82%	85%	74%
Torrey Pines High	99%	99%	97%
DISTRICT TOTAL	99%	99%	96%
STATE TOTAL	85%	85%	83%

Dropout Rates by Ethnicity

ONE-YEAR DROPOUT RATE (NCES DEFINITIONS)	DISTRICT	STATE
American Indian	0.0%	4.3%
Asian	2.0%	1.6%
Pacific Islander	0.0%	4.3%
Filipino	5.3%	1.9%
Hispanic/Latino	3.8%	4.8%
African American	1.3%	6.4%
White	1.8%	2.3%

Teachers and Students

FACTS ABOUT OUR TEACHERS

Our district employs a higher percentage of teachers holding full credentials than the average district in the state. We do not employ any teachers holding intern credentials or credential waivers. Over the past three years, we have decreased the

Teachers: Key Factors

TEACHER FACTOR	DISTRICT	STATE
Full Credentials	100.0%	95.0%
Interns (All Types)	0.0%	3.7%
Emergency Credentials	0.4%	4.4%
Waivers	0.0%	0.4%
Years of Teaching Experience	11.5	12.7
First-year Teachers	6.7%	6.2%
Second-year Teachers	3.0%	6.0%
Students per Teacher	24.9	21.0
Students per Administrator	343.8	251.7
Students per Pupil Services Staff	233.9	257.9

percentage of new teachers on our staff. In our district, the number of students per teacher is slightly higher than the state average. However, we employ fewer administrators per student than the average district in the state.

Teachers: Three-Year Trends for Key Factors

FACTS ABOUT OUR STUDENTS

Students at a Glance

STUDENT FACTOR	DISTRICT	STATE
Subgroups		
English Learners	4.7%	25.0%
Special Education Students	9.0%	10.1%
Low-Income Students	7.0%	50.7%
Compensatory Education Students (Title I)	3.2%	52.3%
Student Ethnicity		
American Indian	0.3%	0.8%
Asian	11.0%	8.1%
Pacific Islander	0.3%	0.6%
Filipino	0.6%	2.6%
Hispanic/Latino	11.8%	48.1%
African American	0.9%	7.6%
White	74.4%	29.4%
Multiple/No Response	0.7%	2.7%
English Learner Enrollment, by Home Language		
Spanish	3.6%	21.3%
Korean	0.3%	0.3%
Mandarin (Putonghua)	0.2%	0.2%
Russian	0.1%	0.1%
Japanese	0.1%	0.1%
All Other	0.3%	2.9%

Some students' educational needs require additional attention by our teachers and teacher assistants. The financial impact of educating these students is not clear. Compared with districts statewide, we have a much lower percentage of English learners, low income students, and compensatory education students. Please note that our overall enrollment has increased by about four percent over the past three years.

Student Trends, 2005-2007

SCHOOL LEVEL ENROLLMENT	2005	2006	2007

Teachers and Students

ENROLLMENT BY GRADE LEVEL

Our middle schools and high schools tend to be bigger than similar schools in the state. When we review enrollment by grade level, we see the highest level of enrollment at eleventh

Enrollment by Grade Level

	NUMBER OF STUDENTS
Grade 7	1,860
Grade 8	1,881
Grade 9	2,179
Grade 10	2,194
Grade 11	2,218
Grade 12	2,043

grade. The transition point between middle school and high school is of concern to our leadership.

Key District Facts

GRADE LEVEL	SCHOOLS	STUDENTS	DISTRICT AVG. STUDENTS PER SITE	STATE AVG. STUDENTS PER SITE
Middle	4	3,736	934	893
High School	4	8,368	2,092	1,535
Alternative	1	106	106	217
Continuation	1	142	142	138

Enrollment by Grade Level

AVERAGE CLASS SIZE

In middle and high schools, our core course classes are about the same size. Compared with similar schools around the state, our English classes are larger than average.

Average Class Size

	DISTRICT AVERAGE	STATE AVERAGE
MIDDLE AND HIGH		
English	30.0	25.5
Math	29.0	27.1
Social Science	30.0	29.0
Science	30.1	29.1

Average Class Size by Course: Middle and High Schools

Resources

FINANCIAL ANALYSIS

Compared with other districts like ours, we took in revenue at levels nine percent under the state average and spent at a level that was two percent below the state average. This is viewed on a per-student basis, based on average daily attendance (ADA). Of the major categories of expenses, the one with the greatest dollar impact is teacher salaries (certificated), where we spent two percent more than the state average. The category in which we spent the most compared with similar districts statewide is books and supplies. Spending in this category was 20 percent above average.

Key Financial Factors, Compared with Other High School Districts

FINANCIAL FACTOR	DISTRICT	STATE	DIFFERENCE
Expenses per Student	\$8,286	\$8,438	-2%
Revenue per Student	\$8,638	\$9,508	-9%
Certificated Salaries per Student	\$4,136	\$4,074	2%
Classified Salaries per Student	\$1,469	\$1,404	5%
Employee Benefits per Student	\$1,446	\$1,638	-12%
Books and Supplies per Student	\$585	\$486	20%
Services and Other per Student	\$651	\$836	-22%

Attendance and Expenditures

The six-year trend in our ADA shows an increase in enrollment. Our ADA trends should have a direct effect on our revenues. Usually, the higher our attendance, the higher our funding. Our revenues have grown 30 percent in six years, while our ADA has grown 17 percent in the same period of time.

Average Daily Attendance

Operating Expenses

Resources

Below you will see how our district compares with others in our county, both on a revenue and an expense basis per ADA. We are comparing ourselves with other districts based on revenue per ADA. Note that this revenue detail includes our

general revenues (revenue limit), federal revenues, other state revenues, and local revenues. We also compare our district expenses with those of the same districts. The key component of our expenses is salaries.
