

SAN DIEGUITO UNION HIGH SCHOOL DISTRICT

- PESTICIDE NOTIFICATION -

July 1, 2010

The California Healthy Schools Act of 2000/AB2260 contains the following procedures to control pests and minimize exposure of children, faculty, and staff to pesticides/herbicides:

- Warning signs will be posted at all entrances to school district property 24 hours prior to regular pesticide/herbicide applications and will remain posted for 72 hours after the application.
- Parents and staff may request in writing a separate written notice for each pesticide/herbicide application 72 hours prior to the anticipated application. Direct requests to Javier Lopez, Integrated Pest Management Supervisor, 710 Encinitas Blvd., Encinitas, CA 92024.
- Active ingredients of all pesticides/herbicides used by the San Dieguito Union High School District and/or copies of the California Healthy School Act of 2000/AB2260 may be obtained by written request to Javier Lopez, Integrated Pest Management Supervisor, 710 Encinitas Blvd., Encinitas, CA 92024 or by visiting the California Department of Pesticide Regulation web site, <http://www.cdpr.ca.gov/schoolipm>, and click on the Parents and Teachers link.
- The selection and use of the least hazardous methods and materials effective for the control of targeted pests and weeds will be implemented.
- Non-chemical prevention of pest and weed population is always preferred using such methods as sanitation, exclusion, and cultural practices.
- Precision targeting of pesticides and herbicides to areas not contacted by or accessible to students, faculty and staff will be implemented.
- Application of pesticides/herbicides will only be used "as needed" to correct verified problems.
- In the event of an "emergency" application of a pesticide to control a specific and documented problem, signs will be posted immediately and remain posted for 72 hours following the application procedure.

The spraying schedule for each specific school site is attached.

The following pesticides/herbicides to be used at the school sites may include:

<u>Name of Pesticide</u>	<u>Active Ingredients</u>	<u>Usage</u>
